FRANCISCO PEDROSA

University Technician in Programming

franpedrosa04@gmail.com • (+549) 223-454-1211

PROFESSIONAL PROFILE

I am a recently graduated programming technician with a solid foundation in web application development and database management. I am motivated to learn and grow professionally, bringing enthusiasm and commitment to every project I undertake. My goal is to join a dynamic team where I can apply my knowledge while continuing to develop new skills and face innovative challenges. Additionally, I have been part of rugby teams since I was 8 years old, where I served as captain at various stages, allowing me to develop leadership, teamwork, and resilience skills.

ACADEMIC EXPERIENCE

- Home Banking: Angular18 (front-end), Express and Knex (back-end), SQL (database).
- Medical Appointment Manager: Project developed in Java.

EDUCATION

- University Technician in Programming   2023 - 2024
